DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on August 22, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of patent number 6,816,106 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 7-11 and 15 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: With respect to claim 7, the prior art failed to teach or render obvious the claimed "processing facility compares said broadcast messages from said IFF units with said communications from said surveillance unit and performs computations including determination of all locations of all properly authorized objects within said surveillance area, identification of objects not authorized to be in said surveillance area, and generation of appropriate notice"; with respect to claim 15, the prior art failed to teach or render obvious the claimed "correlating said location information from said reflection signal with said broadcast information from said object to determine location of said object properly authorized to be within a surveillance area". The prior art teaches various IFF surveillance systems.

Art Unit: 3662

However, none of the prior art either singularly or in combination teaches the claimed system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
